The Letter Carriers of the General Post Office, anxious to render the Directory in every way worthy of the patronage it has received, have this year added a list of the Messengers-at-Arms, corrected from the books of the Lyon Office, up to the 25th May, which they hope will prove acceptable to the gentlemen of the legal profession; and they beg to assure the Public, that no exertions or expense shall be spared to promote the utility of the publication, by endeavouring to insure its correctness, by including every possible information, and by as early a publication as circumstances will admit; as a proof of their exertions in the latter respect, they beg to mention, that the work is this year published a fortnight earlier than it has ever before been.

J. FINDLAY, Inspector of Letter Carriers.

Letters for the penny-post delivery must be under 4 ounces weight.

*Bank Notes and Drafts.*—Persons wishing to send bank notes or drafts by post, are advised to cut such notes or drafts in halves, and send them at two different times, waiting till the receipt of one half is acknowledged before the other is sent.

*Money, Rings, or Lockets, &c.*—When money, rings, or lockets, &c. are sent by the post from Edinburgh, particular care should be taken to deliver the same to the Clerk, at the window at the General Post-Office; and when any such letter is to be sent from the country, it should be delivered into the hands of the Post-master; but it is to be observed, that this office does not engage to ensure the party from loss.

## REGULATIONS.

1st. The regulations and table of fares enacted upon the 19th day of June 1811 years, are hereby repealed; and the before-mentioned general rules, the following regulations, and annexed table of fares, made according to these general rules, are substituted in place thereof.

2d. That each coach or chariot, before plying for hire, shall be inspected by a magistrate; and, if approved of, will be licensed by him, when a number will be issued to the owner, who must affix the same, together with his name, in letters at least one inch in length, on each door of the coach or chariot, immediately below the window. That there shall not be the same number on two coaches or chariots; and that no coach or chariot wanting such number or name shall be allowed to ply.

3d. That no insufficient coach, or chariot, or horses, shall be allowed to ply; and when any of the proper furniture of steps, springs, blinds, glasses, or check-strings for stopping the coachman, are broken or wanting, or the harness shall not be in good repair, it shall be lawful to detain from the hire 1s., or the whole hire, if it shall not amount to more. The coachman shall always keep the check-string in his left hand when driving, under a penalty not exceeding 5s.

4th. That there shall not be fewer than six coaches or chariots on the stance in Princes street, every morning at nine o'clock, taking this duty by rotation, beginning at No. 1, and going on progressively, under a penalty of 10s. for

every coach or chariot absent. All coachmen attending for a fare, at any stand, shall either sit on the coach-box, or stand at the horses' heads, under the penalty of 2s. 6d. for each offence.

5th. That each coachman shall be cleanly in his person, and wear a ticket on the front of his coat, with a number corresponding to that on his coach or chariot, under a penalty of 5s. for each offence.

6th. That when a company shall take a coach between the hours of ten and twelve o'clock P.M., in that case fare and a quarter shall be paid; between the hours of twelve and one o'clock, fare and a half shall be paid; and after one o'clock, double fare shall be paid, with the exception of the Theatre, where the usual charge only shall be paid.

7th. That the stances for the coaches and chariots shall be as follows; viz. Tron Church,—Princes street, east end,—George street, between Hanover and Frederick streets,—Princes street, west end, facing Hope street; or at such other places as the magistrates from time to time may appoint; and that there shall not be fewer than four coaches at the stand facing Hope street.

8th. That coachmen are not on any account to inquire where a company are going, previous to engaging, or to plead prior engagements, when their services are required; nor shall they be allowed to draw off the stance, under pretence of being engaged, so as to have their choice of work; but their coaches or chariots, being on or near the stance, shall be considered as proof of their being disengaged; and on their refusing to take a fare, they shall be liable in a penalty of 10s., unless they can adduce evidence, to the satisfaction of the Magistrates, that they were actually engaged.

9th. That when a coachman is required to wait, either upon setting down or taking up a party, he must on no account refuse, under the penalty of 5s. and the forfeiture of his hire; but he shall be entitled to charge for the first fifteen minutes sixpence, and a like sum for each successive fifteen minutes he may be detained.

10th. That if a coachman shall be sent from a stance to any house to take up a company, he shall immediately announce his arrival, and remain in waiting during the pleasure of the company; for which he shall be entitled to charge the same allowance from his arrival as in the preceding regulation.

11th. That no fares higher than those in the annexed tables shall be demanded or taken: And if hired to any spot or place, not specified in the annexed table, (such as) from a change of the name, a new place, or beyond the limits, &c. in that case no fare higher than those in the before-mentioned general rules shall be demanded or taken: The coachman having it in his option to take either for the length of ground or time, but not for both. And if any coachman shall be convicted of imposing on his employers, or abstracting the fares from his master, he shall be liable in a penalty of four times the amount of the fare, and imprisoned until payment.

12th. That every coachman, when on duty, shall have in his pocket a printed copy of these regulations, to be kept in a tin box, with the number of the coach or chariot painted on it; and shall show the same to his employer, when required, under a penalty of 5s.

13th. That any coachman being convicted of drunkenness or abusive language, the Magistrates may revoke his license, or impose a penalty of 10s. and order him to be imprisoned till the same is paid.

14th. That the coachman (master or servant) after setting down a company, shall drive to the nearest stance; and if the

number of coaches or chariots ordered to stand there is not complete, he shall remain for the service of the public.

15th. That any person wanting a coach or chariot, shall take one from the nearest stance to his residence; but if none shall be there at the time, and one shall be procured from another stance, there shall be paid for every stance beyond the nearest, in addition to the fare, the sum of 6d. This to be only applicable to fares under 2s. 6d.

16th. That there shall be no additional charge made for taking up or setting down any part of a company, unless the coach or chariot shall be detained ten minutes, which time for attendance shall be allowed to each fare, and not exceeding.

17th. That parties returning by the same coach or chariot, from any place, whether in town or at a distance in the country, shall pay one half fare additional, as back hire.

18th. That the fares are exclusive of the King's duty and tolls, which are to be paid by the company.

19th. That the regulations respecting the fare to Musselburgh will not be insisted on during the race week, for two hours before, and two hours after the horses have started for running.

20th. All parcels, or articles of any kind, to be immediately returned to the owner, if known; if not, to be lodged in the Council Chamber.

21st. At least one-fourth of the coaches to attend at the stand east end of Princes street, on Sunday, from ten o'clock morning, to ten o'clock at night.

22d. That these regulations may be enforced by the Magistrates in the Council Chamber, or Judge in the Police Court.

RAMSAY-LODGE,

(*The late residence of the Principal,*)

WHERE rooms unconnected with the house are set apart for that purpose, and where Sea-water, Buxton, Aix-la-Chapelle, Barege, and plain Warm-water Baths, and also Acid, Aromatic, and Opiate Vapour Baths, Vapour of Water, Alcohol, or Ammonia, are administered in various complaints; and an entrance to them from the Prince's Street Gardens, from the Mound, or the High Street, and Ramsay Lane. At the Establishment in Antigua Street, in addition to the above, the Harrowgate-Bath, and Fumigations of Sulphur, Mercury, &c. are used.

Vapour, Sea-water, or plain Warm-water Baths, are sent ready for immediate use to all parts of the Town from both Establishments, without any additional charge, except the usual fare for a chair, as they are carried warm by two chairmen.

The above, and other Mineral Waters, may be had in tumblers, or in bottles, every morning, in Antigua Street; and the Salts there used to give the Mineral Waters round this Town the virtue of the Cheltenham or the Harrowgate Springs, will be found at St George's Well, and at Bonnington and Joppa Wells.

To remove any possible ground for unworthy suspicions on the part of any medical man, unfounded as they are, and insinuated, as they have been, from motives too obvious to be repeated, a rule has been laid down, that whenever a patient shall bring directions in writing, as to the sort of Bath required, specifying the temperature and duration—such patient is to be considered entirely as the patient of the medical man by whom such directions shall be given; but when no such directions are given, the responsibility rests upon the author of this practice in Edinburgh; whereas, in the former case, he has no responsibility, and shall never interfere in any manner; and that this may be the more perfectly understood, it is expected, that whenever his advice, or his superintendence in its administration, at home or abroad, may be desired, the charge for the Baths, Shampooing, &c. is not to be considered as any remuneration for such advice or such attendance. This remuneration, however, is entirely *ad libitum*; for the law, as it relates to the professions in which he has been educated, forbids any demand being made, and he never has, and never will, make any demand upon any person, high or low.

In every case, therefore, where a medical man wishes to have the assistance of the author, a consultation with him is necessary, and it will be clearly understood that no departure from the plan of treatment then settled is to be made by the author, without another consultation with such medical man.

For a fuller account of this Institution, and the cures made, together with the letters of Sir Thomas M. Brisbane, Captain Hamilton, Mr Campbell of Fairfield, &c., see the Appendix to the Post-Office Directory, for 1827, p. 81. The letters that have been received from medical men and others, in cases of secondary syphilis, and in diseases produced from the abuse of mercury, are extremely numerous and satisfactory. Although they cannot be published, leave has been given to show them at the Establishment, more especially as the author is on the point of publicly exposing the absurd doctrines of the anti and hyper-mercurialists.

## Wines.

FREDERICK JAMES SCOTT, grandson of the late William Glendonwyn of Glendonwyn, has, with the approbation, and under the direction, of his Tutor, till of age, commenced the Business of a WINE MERCHANT; and from the connexions which he has formed in France, he has the opportunity and the ambition to establish a character for the fine Wines of that country in their genuine state, and at the lowest price for which they can possibly be afforded. The French Wines are all bottled in France, and sent direct to the King's Cellars in Leith, from whence they may be purchased in cases of three dozen each.—Mr CONNELL, No. 88, Prince's Street, is the Agent for the sale of these Wines, and from him they may be purchased either in cases or in single bottles, and all particulars as to price be known.

Any Wines not approved, may be returned within a week after being purchased, and the price will be repaid.

### LIFE DEPARTMENT.

There are few persons to whom the advantages of Life Insurance are more applicable than to gentlemen in the learned professions, or in public offices, and to officers in the army and navy; even gentlemen of large landed property, whose estates are entailed on the eldest son, have, in many instances, of late years, adopted this mode of making provision for younger children, or of increasing the income they are desirous of leaving to their wives.

Persons holding lands by lease on lives, may assure the lives on which the lease depends. A creditor may assure the life of his debtor for the amount of his debt; and arrangements in the cases of loans may, by such means, be made highly convenient to the borrower, and afford security to the lender. The line in which estates are to descend often depends upon survivorships; if the person in expectation does not survive the person in possession, the estate perhaps goes into another family; in this case it is prudent, in those interested, to assure the life of the person through whom they may expect to inherit, against that of the person in possession; and as this is generally the case of a young life against an old one, a large sum may be secured for a moderate advance.

It can only be from a want of information of the principles of assurance, that lives on which so much depends should remain unassured by the persons interested in their continuance; and what removes every difficulty in point of expediency, is the advantage which the Atlas Company holds out of *purchasing the interest of the Assured, at any time, at an equitable rate.* The facility offered of transacting the business through a Committee of Proprietors acting for the Company, without

applying to a professional agent, or correspondent in London, must operate as a great inducement for persons not to neglect so salutary a precaution.

*Persons interested in Life Policies for the whole term, will, at the close of every period of seven years, be entitled to participate in the surplus Premiums, to be then ascertained by actual valuation; and the average addition to the sum insured for the last period was 65 per cent of the Premiums paid, which is GREATER THAN HAS BEEN MADE BY ANY OTHER INSURANCE OFFICE.*

As to the Rates charged by the Company, it may suffice here to say, that the Tables adopted by the Directors were originally framed upon the sound principles of mathematical computation; and the practice of the Equitable Society has put them to the unerring test of long and extensive experience.

If any new offices have ventured to reduce these rates, they may, perhaps, have done so without transgressing the bounds of bare security; but their prudence is at least questionable; and the Atlas has no inclination to follow their example. The means of accumulating money at compound interest, without risk, are open alike to all; and if in the exercise of those means the Atlas shall be found to have collected greater funds than their actual engagements require, the security of the Assured is placed beyond all question, and the surplus is preserved for the future benefit of those who had contributed to create it; and, therefore, constituted as this Company is, it will be more for the interest of parties having Life Assurances to effect, to assure a less sum, at premiums which have been found fully adequate to meet losses, than a larger one at premiums speculatively reduced. In effect, the reduction of premium is only nominal; for the comparison to be drawn is not between the two rates of premium, but between the premium and the sum ultimately to be obtained in return.

### FIRE DEPARTMENT.

The Assurance of every species of property from loss or damage by fire, is undertaken by the Company on highly favourable terms; and policies for £300 and upwards will be entitled to participate in the surplus premiums every fifth year; the amount thereof in several late years has been from *Twenty to Twenty-Five* per cent.

The following are the rates for all policies where the premium exceeds 5s.

Common risks,	1s. 6d. per cent.
Hazardous ditto,	2s. 6d.
Doubly Hazardous,	4s. 6d.

A payment for rent is made by the Company in case of *Loss on Buildings, without any extra premium.*

Proposals, fully explanatory of the principles and rates of the Company, may be had at the Company's Office, No. 59, George street, Edinburgh, where all letters on the subject of Assurances may be addressed to the Committee, or to their chairman, Mr Campbell.

The distinguishing feature of this Company is to effect Insurances on lives, on the lowest possible terms, consistent with the security of the public. This Company is not founded on the principle of Mutual Insurance, nor does it, like many others, profess to share the profits with the Assured in any other way than by a diminution of the rates of Insurance. On this plan, the Assured, *without being made partners*, are in fact participators in the profits; because they are only required to pay the very lowest possible rate of premium, and thus enjoy all the important advantages attending Insurance, at the least possible diminution of income. Of this a comparison of the Company's tables with those of other offices, will readily satisfy every one.

The rates are at least 18 per cent lower than those commonly charged, which may be illustrated by the following example.—A person aged 30 insuring £100, to be paid at his death, is required to pay an annual premium of only £2, 5s. while in other offices he is charged £2, 13s. 5d., being upwards of 18 per cent more than this Company demands.

Persons wishing to discontinue their Policies may dispose of them to the Company at a fair price.

The Policies of the Company may be at any time sold or mortgaged, and no notice of such transaction is required to be given at the office.

No charge is made for entrance, nor for Policies, except the Stamp.

Annuities are purchased and granted by this Company on terms peculiarly advantageous to the public, and Endowments for Children are also granted on the most liberal terms.

Printed particulars may be had *gratis*, and every information obtained, from Mr Edwards, as above, or from any of the Company's agents, in every city and town of the united kingdom.

This Company was established in 1805, and is incorporated by royal charter, confirming the joint and individual responsibility of all the partners, thereby affording the most ample security to the insured.

For the convenience of Farmers, and others requiring insurances for short periods, short date policies are granted; and farm-stock is insured in one sum (without the average clause) wherever situated on the farm.

Proprietors may be insured against loss of rents by fire, at the same rate of premium that is charged for the buildings.

Persons insuring for seven years are charged for six only.

The rates of premium charged by the Company are—for

common insurance,	£0	1	6	per cent.
Hazardous,	0	2	6	do.
Doubly hazardous,	0	4	6	do.

Losses are promptly settled, and no charge is made for policies, except where the sum insured is less than £200.

## LIFE DEPARTMENT.

The variety of cases in which, by means of Life Assurance, income is made to supply the place of capital, is becoming daily more generally understood, and must readily suggest themselves to all who perceive that the person who applies a part of his annual income to an insurance on his life, instead of lodging it in a bank, or applying it in his trade, for the purpose of accumulation, converts at once the *prospective savings* of a long course of years into *testamentary capital* for the benefit of his family; and thus effects immediately what, without the aid of Life Assurance, he could not accomplish, unless he should happen to attain a period of life which there are at best many chances against his ever reaching.

It is usual to have a precise sum insured at the lowest possible rate of premium; but the party insuring sometimes prefers to speculate on his longevity, by paying a higher rate of premium, in order that periodical additions may be made to his Policy, proportioned to the success of the Office. The North British Insurance Corporation have therefore adopted *two different plans* for assurance upon lives,—one of them embracing assurances for short periods, and for all the other usual contingencies of life assurance; thereby combining, as far as is practicable, every advantage which is to be found in the various systems of life insurance hitherto offered to the public.

By one of these plans, the assured do not become partners, but have the benefit of a *reduced scale of premiums*, calculated at the lowest rate at which such risks can be safely undertaken. By the *other plan*, assurers for the whole duration of life are entitled to *participate to the extent of two thirds in the profits* of the Office, and are guaranteed from all responsibility by the capital of the Corporation.

The following extract from the Company's Tables of Rates shows the premiums exacted for the assurance of precise sums.

### ASSURANCE SOCIETY FOR FIRE, LIVES, AND ANNUITIES.

(INSTITUTED IN THE REIGN OF QUEEN ANNE.)

This is one of the oldest offices in London (1714). Of the profits, which are divided, the Proprietors are entitled to only a limited proportion, and the Insured to the remainder. Notwithstanding the small share of Profits divided among the Stock Proprietors, an opportunity of purchasing the Stock rarely occurs, and then it is so much sought after in London, that upwards of L.200 per cent is readily given for it, which is the best evidence of the public confidence in the *stability and success* of the Office. This Office *has never appeared in a Court of Law*. From the large share of Profits divided among the Insured, every Policy for the *whole period of life* will become considerably increased in value at the death of the person insured. The insured for limited periods do not participate in the profits, but the rates for such insurances are reduced 20 per cent below the usual rates. The rates for the *whole period of life* are equally low with those for short insurances, when the share of the profits, to which the insured are entitled, is taken into computation. The Assured for the whole period of life may, by the rules of the Society, pay off the *whole annual premiums in one year, or any limited number of years*—for which purpose the Society have had Tables calculated on the most equitable principles. This will be found to be of great advantage to many who cannot, with certainty, calculate on its being convenient to make an annual payment during life.

**FIRE INSURANCE.**—Those insuring against Loss by Fire, for *seven years*, are entitled to share in the profits in the same proportion as in the Life department, which generally amount to upwards of *one-fourth* of the *total premium* paid; while *only six years premium and duty* are required, payable when the insurance is effected. The terms for *Septennial Insurance* are therefore highly advantageous to the public. *Annual Fire Insurances* are done on the usual terms.

The business of this Society is extended, not only throughout *Britain and Ireland*, but also widely on the *Continent of Europe*—in the profits of all which the Assured in Scotland are entitled to participate as above, without any risk whatever. Besides the rates of insurance, the other conditions, particularly of Life Insurance, will be found extremely liberal—such as subject the Assured to the least possible inconvenience.

The Society is under the direction of a Board of Management, formed of eminent Merchants in London, who meet regularly twice a-week.

### IN THE FIRE DEPARTMENT,

This Company continues to effect Insurances (with certain exceptions) on the three ordinary classes, at the reduced rates of 1s. 6d., 2s. 6d., and 4s. 6d., per L.100. Property of a description involving a greater degree of hazard, will be insured at a rate of premium commensurate with the risk.

### IN THE LIFE DEPARTMENT,

The Rates of Premium either for *short periods*, or for the *whole term* of Life, are considerably lower than the rates exacted by nearly all the other Offices.

The difference between the *reduced rates* of this Company, and the rates usually required, is equivalent to an *annual bonus*, giving *immediately* to the Assured, upon the best and most equitable footing, that share of the profits which is only *prospectively* held forth by the Societies acting on the Return System.

Tables of Rates and Proposals explanatory of the Plan on which the *Life Department* is founded, may be had *gratis*, on application at the Head Office, North Bridge Buildings, Edinburgh; or from any of the Agents in the principal Towns of Scotland.

A list of the Company's Agents will be found in the Edinburgh Almanack, page 306.

## AND LIFE ASSURANCE SOCIETY.

GENERAL COURT—1828.

THE FOURTEENTH ANNUAL GENERAL COURT of the SOCIETY, which was numerous and respectably attended, was held in the Waterloo Tavern on the 15th January 1828, Sir JAMES W. MONCRIEFF, Bart. Vice-President, in the Chair.

The Manager read to the Court the Report made to the last Extraordinary Court of Directors, held on the 5th inst. shewing the present state of the Society's affairs, and the business done during the bygone year. He also laid before the meeting a progressive view of the transactions of the Society, and of the increase of its fund and revenue since its commencement—all of which were highly satisfactory to the Meeting.

Mr COCKBURN, the Auditor, then addressed the Meeting. Having alluded to the very perspicuous statements that had been just read by the Manager, the entire accuracy of which he begged to confirm, he said it did not require him to say much to satisfy the gentlemen present of the very flourishing situation of the Society's affairs. He only begged leave to call their attention to two circumstances which proved that the prosperity that had hitherto marked the progress of the Society continued to increase, and that the security thus afforded for the fulfilment of the expectations of the Members was put beyond a doubt. One of these circumstances was, that in comparing the amount of the Fund as it appeared from his Report made upon the periodical investigation of the Society's affairs three years ago, with the amount at the end of last year, it appeared that the amount of the invested stock and capital of the Society had somewhat MORE THAN DOUBLED during that period.

The other circumstance to which the Auditor referred was, that in comparing the actual amount of claims that had emerged by death within the last three years, with the calculated amount, according to the rate of mortality assumed in the Tables of the Society, the actual amount of the claims did not much exceed *one-third* of the calculated amount. This statement he was enabled to make from a method of calculation which, from the experience he had acquired in the investigation before alluded to, he considered sufficient for the purpose of affording, by approximation, a view of the claims on the Society, with the calculated value thereof. In pointing out this deviation from the law of mortality exhibited by the Northampton Tables, which had been assumed as the basis of our Tables of Contributions, the Auditor did not mean to impeach the accuracy of the Northampton Tables. These Tables had been formed in relation to the rate of mortality *in the community at large*; but the persons admitted into an Assurance Society such as this, are all *selected lives*; all persons who are not proved, to the satisfaction of the Directors, to be in good health, and of sound constitution, being excluded. From this circumstance of taking select lives only, it must be evident that, in an Assurance Society such as this, the annual number of deaths must always be less than among an equal number of individuals taken indiscriminately from the community.

The CHAIRMAN then addressed the Court. In regard to the principles upon which the Society was formed, he had no doubt that every Member had considered them. There was, however, a most important point which he wished to bring under the notice of the General Court, relative to the *manner*

in which the advantages of Life Assurance may be most effectually secured, and which was applicable in a particular manner to our Society, though perhaps to very few others. He alluded to the fact, that with this Society the **WHOLE FUNDS** contributed are applied to the **SOLE** benefit of the contributors, *no part thereof being diverted from this, its legitimate channel, to any separate class of individuals as their share of profits in compensation of a nominal guarantee*, which, whether requisite or not in Companies conducted upon different principles, was perfectly unnecessary in this Society. From this heavy burden, therefore, the Funds of this Society always have been, and will continue to be, kept free.

The Chairman had the highest pleasure in congratulating the Members on the present most favourable aspect of their affairs. This was now the 14th Annual Meeting, and when he contrasted the smallness of our beginning with the present large accumulated Fund, and considered the magnitude of our annual income, and the gradual but sure progress that has been made in the state of our finances, he could only say (and he had possessed many opportunities at its outset of personally bestowing much attention on the principles of the Institution) that it had more than fulfilled his most sanguine hopes of success, and not only so, but, he was sure, that of every individual who had at all paid attention to the matter. No one could for a moment doubt that the success of the Society, and the excellence of the principles on which it was constituted, were now indisputably established by the most unquestionable of all tests—experience. In regard to the very favourable difference between the actual and calculated amount of the claims on the Fund within the last three years, he could add nothing to Mr Cockburn's very satisfactory statement. It was quite clear that, as the earlier Members advance in age, the contingencies by death will become greater; but then the resources of the Society, for enabling them to meet these contingencies, increased in a greater ratio; and taking one year with another, our calculations will always be found, for the reasons stated by Mr Cockburn, to exceed the actual claims. The consequence of this the Members would all understand—as there would thus be a larger sum to add to the benefits; and these additions, according to the rules that have been established, would be allotted to the benefit of each individual in proportion to the time he may chance to live. The prosperity of the establishment was no doubt in a great measure to be attributed to the careful selection of lives; and he considered this as another gratifying proof that they had placed the administration of their affairs in the hands of Directors whose caution is a guarantee for the careful accumulation of their capital, and for the skilful management of their concerns. He would conclude by saying, that he knew no institution for Life Assurance which presents such an aspect of prosperity and steadily increasing benefit to all its Members.

The COURT then proceeded to the election of Office-bearers for the ensuing year, when the Direction of the Society was vested in the following Members, viz.
